

GC MHB

Melamine Hydrobromide

Chemical Formulae	$C_3H_7BrN_6$
Molecular Weight	207.03
CAS registry number	29305-12-2

GC MHB is a bromine and melamine containing flame retardant with excellent light and thermal stability, without evidence of blooming effects. **GC MHB** has a low halogen content. **GC MHB** is particularly suitable for applications in polyolefins.

PHYSICAL-CHEMICAL PROPERTIES

Appearance	White Powder
Bromine Content, %	Min. 30
Decomposition Temperature, °C	Min. 250
Particle size D_{90} , μm	Max. 10

HANDLING AND STORAGE:	The processing and use of GC MHB requires adequate technical and professional knowledge. Please consult safety data sheet for further handling, storage and toxicity information. GC MHB has to be stored in tightly sealed original container in a cool and well-ventilated area, away from direct sunlight.
-----------------------	---

PACKAGING:	Standard pack size of GC MHB is 25 Kg in plastic bags or 1MT Big Bag.
------------	---

IMPORTANT NOTE	Some plastic additives, fillers or pigments can have significant influence on the flame retardant properties. Before to use these products, please be informed. Machine stop at high temperature could create degradation of polymers. Please clean with neutral polymers.
----------------	---
