

GC PE DC 40

COMPACTED BLEND OF DICUMYL PEROXIDE

GC PE DC 40 is a compacted blend containing 40% of dicumyl peroxide, dispersed in LDPE.

GC PE DC 40 is an efficient crosslinking agent used in thermoplastic polyolefins and synthetic and natural rubber. **GC PE DC 40** can be also used as additive during the recycling process of polypropylene. Dilution in LDPE allows to have a better control of dosage, to improve handling and increasing thermal protection of peroxide.

PHYSICAL-CHEMICAL PROPERTIES

Appearance	White granules
Dicumyl Peroxide Content, %	39-41

HANDLING AND STORAGE: The processing and use of GC PE DC 40 requires adequate technical and professional knowledge. Please consult safety data sheet for further handling, storage and toxicity information.
GC PE DC 40 has to be stored in tightly sealed original container in a cool and well-ventilated area, away from direct sunlight.

PACKAGING: Standard packaging size of GC PE DC 40 is in 20KG plastic lined boxes.
