

GC PP HF 1000

HALOGEN FREE FLAME RETARDANT

GC PP HF 1000 is an environmentally friendly halogen free flame retardant based on phosphorus and nitrogen. Fire retardant properties are based on an intumescent system. GC PP HF 1000 is particularly suitable for applications in PP and PE products. GC PP HF 1000 has good flame retardant effect, low smoke, good dispersibility, and small influence on the mechanical properties. GC PP HF 1000 does not contain heavy metals and any anti-dripping agent.

PHYSICAL-CHEMICAL PROPERTIES

Appearance	White powder
P content, % (w/w)	22.0-24.0
N content, % (w/w)	20.0-22.0
Density g/cm ³	~1.8
Water content, %	Max 0.5
Average particle size, D ₅₀ µm	10-15

HANDLING AND STORAGE:	The processing and use of GC PP HF 1000 requires adequate technical and professional knowledge. Please consult safety data sheet for further handling, storage and toxicity information. GC PP HF 1000 has to be stored in tightly sealed original container in a cool and well-ventilated area, away from direct sunlight.
PACKAGING:	Standard packaging size of GC PP HF 1000 is 25 Kg bags.
IMPORTANT NOTE	Some plastic additives, fillers or pigments can significantly influence the flame retardant properties of the compound. Before using these products, please be informed. Machine stop at high temperatures could create degradation of polymers. Please clean with neutral polymers.
