

GC RIANOX 1520

4,6-Bis(octylthiomethyl)-o-cresol

Chemical Formula C₂₅H₄₄OS₂
CAS Registry Number 110553-27-0

GC RIANOX 1520 is a versatile liquid phenolic antioxidant used in the processing and stabilization of a wide range of polymers and elastomers. **GC RIANOX 1520** is a synergistic antioxidant therefore it can be used alone and with other additives (secondary antioxidants, light stabilizers or other co-stabilizers). **GC RIANOX 1520** is compatible with synthetic rubber, polyethylene, polyamide, polypropylene, polystyrene, polyester, polyurethane, rubber and PVC and is recommended for adhesives.

PHYSICAL-CHEMICAL PROPERTIES

Appearance	Low viscous pale yellow liquid
Assay (HPLC), %	min. 96
Transmittance@ 425 nm, %	min. 95

HANDLING AND STORAGE:	The processing and use of GC RIANOX 1520 requires adequate technical and professional knowledge. Please consult safety data sheet for further handling, storage and toxicity information. GC RIANOX 1520 has to be stored in its tightly sealed original container in a cool and well-ventilated area, away from direct sunlight.
