

MB HYDRO NUC 35T

Foaming agent masterbatch

MB HYDRO NUC 35T is a non-hazardous and environmentally friendly endothermic foaming agent masterbatch. **MB HYDRO NUC 35T** can be used also as nucleating agent during direct expansion process in order to obtain small and uniform cell structure. **MB HYDRO NUC 35T** is suitable for PS, thermoplastics olefin elastomer, PE,PP, PET and PA. **MB HYDRO NUC 35T** is suited for automotive and packaging applications. **MB HYDRO NUC 35T** helps in reducing weight without affecting mechanical properties. Recommended dosage is 0.3-1%.

PHYSICAL-CHEMICAL PROPERTIES

Appearance	White/Pale yellow granule
Active component, %	40±5
Density, g/cm ³	1.2±0.2

HANDLING AND STORAGE: Processing and use of **MB HYDRO NUC 35T** requires adequate technical and professional knowledge. Please consult safety data sheet for further handling, storage and toxicity information.
MB HYDRO NUC 35T has to be stored in tightly sealed original container in a cool and well-ventilated area, away from direct sunlight.

PACKAGING: Standard packaging size of **MB HYDRO NUC 35T** is in 25 Kg.

IMPORTANT NOTE Some plastic additives, fillers or pigments can have a significant influence on properties of end product. Before using this product, please get all necessary information. Stop-machine at high temperature could create degradation of polymers. Please clean with neutral polymers.
